# INTRODUCTION

Palma Residences offers a wide range of accommodation solutions: villas or apartments with one or two bedrooms and double or single rooms with a private bathroom. The villas and apartments are equipped with kitchen, living room, private parking, A/C, DSTV and WiFi.

With an unique landscape, Palma Residences is an oasis of comfort and security in this remote part of northern Mozambique, the epicenter of the gas industry.

With an emphasis on fresh products and careful preparation, the hotel has an excellent restaurant called “Bagamoyo”, that focuses on Mediterranean, Mozambican and Swahili fusion cuisine.

Palma Residence was built in 2016 and developed with the highest international standards by African Century Real Estate Mozambique.
